*The **Road to Success** is  
through the Success of  
our Customers*

**Mover's Choice Online** is NOW Available to all Mover's Choice Customers and will help increase your productivity and revenue, recruit and retain key employees, reduce claims, improve employee training, & reduce costs.

**Mover's Choice Online streamlines your business processes and provides access to powerful management tools.**

**Key features include:**

- Insurance claims dashboard, which gives moving & storage companies the ability to mitigate risks and reduce costs with timely data and training. Tools are available to track data by location, employee or contractor. Short video trainings are available 24/7 and can be delivered in response to workplace claims. Plus, Mover's Choice Online uses cutting-edge gamification strategies to encourage employee and contractor participation in safety training.
- Employee onboarding, from assessment to orientation to certification and benefits administration including integration with background checks and drug tests.
- Independent contractor applications, including reference checks and contract requirements.
- Vendor Marketplace, including insurance procurement, MVR review, drug & alcohol screening, bookkeeping, tax support, dispatch integration and other critical business relationships.

- Back office support, generating certificates of insurance, management reports, driver settlements, interstate, COD and military claims invoicing and van line reconciliation.
- Flexible, company-wide communication, with the ability to create subgroups.
- Task management tools that push email reminders and allow tracking of results.

**Personalized Demo & Webinars are now available.**
