

CITY OF SHELTON TRAFFIC BOX WRAP PROJECT

The City of Shelton is seeking artists to transform the traffic signal cabinets throughout the community into colorful works of art. Traffic signal cabinets – the grey metal structures located at every signalized intersection – are vulnerable to graffiti and vandalism. This project will utilize a public art application to address community blight and enhance the visual landscape. Artwork will be printed on vinyl and wrapped around the three traffic box cabinets in the City of Shelton.

A public vote on all qualifying submissions will take place during the week of October 29th – November 2nd via Survey Monkey on the City’s Facebook page. The top three selections will be reviewed by the Shelton Arts Commission prior to final approval by the Shelton City Council.
