Preparing for the Voluntary Protection Programs (VPP) Star recertification assessment can be even more difficult than the initial onsite visit. Developed specifically for Region IX, this recertification workshop offers valuable insight into the recertification process and reminders of assessment aspects many organizations tend to overlook. Facilitated by a Special Government Employee (SGE) and Special Team Member (STM) professional with over 15 audits under his belt. Take advantage of this “can’t miss” informational post-conference workshop.
