

GRANDE[®] CHEESE COMPANY

THAT ALL-NATURAL GRANDE TASTE

Our cheeses are made from only the freshest, all-natural ingredients. They are so full of flavor, there's no room for additives, fillers or preservatives. Our cheeses are all-natural not because it's trendy, but because it's how we've always made cheese and how cheese should be made.

IT STARTS WITH THE PUREST, WISCONSIN MILK

Our milk is collected daily from cows at dedicated Grande producer dairy farms that have been rated "Verified Premium Plus" by the Dairy Quality Center. After milking, it is quickly cooled and taken directly to our nearby state-of-the-art facilities, where our cheese artisans craft it to bring out that great Grande taste.
