

Making a difference

Here in Kenya the school year is from January to November so exams and graduations are upon us.

In 2016 we had told you about a small village called Mosario. There were children there who desired to go to school but couldn't because the local school was full and they had no place to go.

God had put it on our hearts to step up and make a difference by building two class rooms along with desks and black boards to get the school started. This has now become Full Gospel Vision Jr. Academy.

On this past Wednesday Susan and I went back to the school to celebrate the first graduating class from top class. (Kindergarten to first grade) The graduates were in their caps and gowns, the teachers were so proud, and the director of the school was so very, very happy.

The director talked of their vision for the school, and then he stated if not for the ministry these children would not be graduating. That was a Wow moment.

I was asked to give a speech; instead I congratulated the students and shook each one of their little hands. This day was all about them not us. I wished them well in their future education endeavors. I requested that the parents support their students and the community.

2016 Full Gospel Vision Jr Academy

Completion of first class room.

Full Gospel Vision Jr Academy

Graduation class of 2018

Community praying for the students

If it was not for your support these children would not have graduated, you are making a difference half way around the world from where you live.

On the way home I thought isn't this God wants from us, to make a difference.

God made a difference by sending his son to die on the cross; Jesus made a difference by voluntarily going to the cross, so we all could have eternal life.

You are all making a difference on the other side of the globe.

Susan and I want to say thank you, from us and the students.

Please keep all of the students and their families in prayer as they are returning home for the holidays and return back to school in January. This is a time of celebration but it can be a time of hardship for the families to feed all of the children at home.

As the school year is ending we are already preparing for January and the school year to start again.

If you would like to sponsor a child, build a desk, black board or partner with a school please feel free to contact us at whitlocksmail@yahoo.com

Thank you for being part of our ministry.

Blessings,
Dave & Sue
