

## TESTIMONIALS

"What a great experience it was for me. I wish it was a week long!"

- Dr. Julia Duinker

"Blessed to have humble and very professional Dr. Gaum & Team"

- Dr. Manjot Dev

"The most hands-on course I've ever taken!"

- Dr. Miguel Garcia

"Dr. Gaum's course is the BEST investment I've ever made! His course gave me the tools, techniques and confidence to tackle extractions and surgical procedures I shied away from in the past. My only regret is that I didn't take this course sooner!"

- Dr. Mohamad Salame

"I just wanted to give you an update that I did two cases last week removing four impacted 3rd molars using your techniques and the instruments you recommended. Both cases went very well. The crane pick is totally my favourite instrument now. Thank you very much! The course made me much more confident with my surgery skills."

- Dr. Karim Habib

The Toronto Implant Academy is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 9/1/2017 to 8/31/2019. Provider ID# 355116

**Presented By:**

**Dr. Lawrence (Larry) Gaum** is an oral surgeon who maintains a private practice in Toronto, Ontario, Canada. He is a graduate of Dalhousie University Dental School in Nova Scotia, Canada. He practiced general dentistry for five years before taking his post-graduate training in Anaesthesia and Oral Surgery at the University of Pittsburgh and the Wilmington Medical Centre in Delaware. He is a former Associate in Dentistry, University of Toronto, where he taught for over twenty years. He has lectured extensively

throughout Canada, USA and numerous other countries, teaching his fellow dentists oral surgery, anaesthesia and pharmacology.

He has written a text book on oral surgery which is now in its second edition titled "Oral Surgery for the General Dentist." He has produced two surgical DVDs which have received enormous positive feedback from the dental profession. He is a member of numerous dental associations in Canada, USA and Europe and is a life member of the American Association of Oral and Maxillofacial Surgeons.

## COURSE OUTLINE

(Course Code: 310)

This course is designed for general practitioners who wish to perform more of their own surgeries. It is a step-by-step presentation of numerous minor surgical procedures that the dentist can and WILL confidently perform in the office. Participants will perform a large number of hands-on procedures utilizing anatomical specimens. The course will demonstrate techniques that have been utilized and updated successfully for over 30 years. It is important to emphasize that this seminar does not present major maxillofacial surgery such as osteotomies, fractures, condylectomies, rhinoplasties, etc. that are of no practical or clinical value to the GP. The surgical procedures that will be taught are the "BREAD and BUTTER" variety, allowing the participants to refine and update all surgical skills.

## OUTCOME

Participants will learn the choice of proper instruments for each surgical technique and the correct use of those instruments. The proper surgical techniques, as well as pre-operative patient assessment and post-operative considerations will no longer be complicated nor a mystery. The GP will have the confidence and the skill to perform all of the surgical techniques taught in the seminar.

## LEARNING OBJECTIVES

### DAY 1

#### 8:30AM - 10:30AM - LECTURE

- Examination, Assessment and Preparation of the Patient

#### 11:00AM - 12:30PM - HANDS-ON Surgical Models & Anatomical Specimens
