## Share Information –Beginning May 8<sup>th</sup>

We are excited to partner with Bootleg Bucha – a Buffalo-based kombucha brewery – to bring you our kombucha share program. Kombucha is a fermented tea that is known for its healing properties. Bootleg Bucha uses a special blend of green and black teas in their kombucha. There are many **benefits** to drinking kombucha including **digestive** – it is good for ulcers, heartburn, and overall digestion due to beneficial bacteria from probiotics; **joint care** – kombucha contains Glucosamine which increases synovial hyaluronic acid production which is responsible for the lubrication and flexibility in joints; **detoxification** – Glucuronic acid is beneficial to the liver, it binds toxins and helps excrete them; and **energy** – includes B vitamins that increase energy, while acetic acid and polyphenols boost the metabolism.

Daily intake of kombucha is recommended to begin at 6-8 oz. per day, either in the morning or after a meal throughout your day. As you begin to enjoy the detoxifying benefits of kombucha, it is recommended you drink plenty of water to help flush your system. One of the great features of this beverage is that it not only has fantastic health benefits but tastes amazing too!
