Signs and symptoms of PXE: You've heard the general discussion about various aspects of PXE. Now take time to share your signs and symptoms, get answers to your specific questions, and learn about nuances of aspects of PXE. *Lionel Bercovitch, MD, Wayne Fuchs, MD, Mark Lebwohl, MD and Christine Vocke, MS*

Research: PXE International has supported a great deal of research over the last 24 years, thanks to generous donors like you. We are on the verge of several breakthroughs that will have been described in the morning. This is a time to ask questions and learn more. *Jouni Uitto, MD, PhD, Jon Schoenecker, MD, András Váradi, PhD, and Patrick Terry*

Support: Using awareness and mindfulness tools, we will explore where you find support and how to sustain it. This session is interactive, we will work together in the larger group, and in pairs and trios exploring meditation, exercises to help us stay in the present moment, and practices to take with you when you need more support. *Sharon Terry and Tamara Wurst*

Note: This breakout spans Session 1 and 2 and will have its own break. In order to build on the experience, participants must join for Session 1. While we ask that you participate from 1:30 PM to 5:00 PM so that you and your fellow participants feel supported, you would be free to leave and join Session 2 should you find this is not meeting your needs.

5:00 PM: **Dinner on your own:** You are in the City of Brotherly Love and the Cradle of Liberty, take advantage of the historical sites of Philly, and the great local cuisine. Please visit www.visitphilly.com, the official visitor and tourism site, for restaurants, and events happening in Philadelphia during your stay. You will also receive some information in your registration materials at the door.
