## The Green and Growing Season

The lovely luscious blooms jumped out at my heart from the page. Pinks in bright fuschia or pale rose. Oranges the color of the sunset. Whites of lacy fancy. I wanted those flowers--out in my garden brightening each day and in vases and arrangements all over my house. The magazine article where I saw those blooms reignited a passion within me. It highlighted the work of Erin Benzakein and Floret Flowers, a flower farm in Washington State ([www.floretflowers.com](http://www.floretflowers.com)) where Erin grows the most amazing flowers for the purpose of cutting and sharing their beauty with the world. These images sent me to the garden store, and then outside to get my hands dirty pulling weeds and planting and nurturing new growth.

We find ourselves in the church year at the beginning of the Season after Pentecost, a green season of "ordinary time." It is a green and growing season, really quite the opposite of "ordinary" both in the church and out in the garden. All this has me thinking about our faith lives and how we grow in faith. "Growing in Faith" is one of our highest values here at St. Mark. This is the title we are giving to the overarching category that includes education, raising up people of faith, passing on faith and making disciples, spiritual growth, mentoring and leadership, learning about others, family ministry, and cradle to grave ministry. This overwhelmingly was the top contender you all identified as a theme in your most meaningful moments at St. Mark.

Recently on the day we confirmed four wonderful young people, I was remembering my own confirmation. I was realizing that while in some minds Confirmation means the culmination of learning in faith, for me, and for all of us really, it is just the beginning. I can look back on my life and see the different stages of learning and growing in different ways. Those Bible Studies that opened up scripture for me. Those mission trips that put my faith into action through my hands. The college theology courses that expanded my understanding of God. Those spiritual practices that deepened my roots in practicing the presence of God. The leadership opportunities that called forth gifts from me I didn't know I had to be put to use for the kingdom of God. The encounters with other faiths that helped me realize how big God is. I suspect that you too have many seasons of growing in faith in your own life since Confirmation. For the truth is, we are never done growing in our faith.

This green and growing season I challenge you to think deeply about your faith life and where you are needing the gardener God to tend to your growth. Is it at the roots/ in the soil? Are you needing time in prayer, time in God's presence drawing nurture and nutrients? Is it in strengthening your stem? Are you in need of knowledge and insight from Bible studies, or book readings, or conversations and experiences that help you think about faith? Is it in producing the fruit of our faith, in acts of service, in sharing our gifts with the world for the good of the kingdom of God? Whatever it is, I hope that you will be inspired by the lushness of the season of summer outside, this green and growing season, to tend to and invite God to garden and grow your faith life as well.

Peace,  
Pastor Christie

## Thoughts from the Loft

One of the greatest feats in engineering is an organ, in my humble opinion. With its thousands of pipes made of metal and wood, the sounds an organ makes can be like a subtle flute or a brass band. Its many moving parts that transfer the wind from place to place causes the organ to breathe like a real person! All of the physics involved, from sound waves to tuning slots, makes the organ a complete miracle in the production of musical sound. What a blessing it is that we even get to sing with it every Sunday to glorify God. As we appreciate the beauty of God's creation this summer, I might suggest we also appreciate a feat of God's creation, the pipe organ.

Blessings,  
Tim

Thank you so very much for our sending blessing on Sunday, May 13! It meant a lot to our whole family. You are all very special to us and we will continue to pray for all at St. Mark.

Sincerely, The Molini Family  
Tony, Tina, Matt (and Ally), Michele and Ryan

**THANKS SO MUCH** to everyone for your generous support of the Rachel's Day fundraiser. The money we have raised will be sent to Lutheran Social Services of Illinois' Intact Family Recovery Program. If you'd still like to contribute, see Kim Perlich or clearly mark a pew envelope "Rachel's Day".

**THANK YOU....THANK YOU!!!**

**Announcing: The King's Players' 2018 Summer show**

## **2018 Revue Show**

**July 26-29, 2018**

**at Forest View Educational Center Theater**

When life hands you lemons, as they say, make lemonade! Sadly, we did not get enough actors to produce *Once Upon A Mattress* this summer. Instead, this is going to give us an opportunity to do something we've long wanted to do. Rather than doing a book musical, we will put together our own revue show, giving our cast an extraordinary opportunity to perform musical numbers from a variety of shows—even more than they would in an ordinary book musical! It will be a challenging and creative endeavor.

## Columbarium and Memorial Garden Update

Many of you attended one of the information sessions after worship services on May 20 and saw the illustration boards showing the appearance of the columbarium and the sample bronze faceplates that will make up the face of the structure. Everyone agreed that the design is very attractive and that the area outside of the entrance to the transept will have a much improved appearance with new lighting, a better view of the stained glass windows and a small meditation chapel in front of the columbarium.

Together with the proposed garden, this represents an important new St. Mark ministry that provides a beautiful place for the cremains of a loved one together with an easily accessible place to meditate and honor the memory of that person.

Beginning in June and throughout the summer there will be additional opportunities to learn more about how you can support the development of the project through reservations of niches in the columbarium as well as contributions to the construction cost of the proposed garden.

The columbarium will be ready for installation in late August; the team is currently exploring plans for the development of the garden. There will be opportunities to donate to the cost of items in the garden such as benches, sculpture, or plantings. Plans are to incorporate the existing memorial patio into the new garden. We welcome your questions and ideas!
