

## BUYER BEWARE

### Unauthorized Websites Target Environ Consumers

We are aware that there are a few illegal online sites selling Environ products, and we would like to inform all of our customers that these online sites have **NOT** been authorized to sell Environ Skin Care on line. Despite how legitimate these sites may appear, by making illegal use of our logo, trademarks and copyrighted materials, they are not trained and authorized Environ stockists, and because the products are not sourced from us, they are either counterfeit or fraudulently obtained.

In addition, these sites are in violation of the FDA, US Customs, Homeland Security and other state and federal agencies, therefore, the person ordering or receiving their products could be liable to pay all applicable duty, taxes and penalties.

#### AUTHENTIC

- Manufactured in Environ's own factory
- Tested by independent labs for safety and efficacy (Swiss Vitamin Institute approved)
- Formulated with highest grade pharmaceutical ingredients
- Always fresh
- Protective packaging from heat, light and air
- Professional Skin Care Consultant Support for products provided by Authorized Environ Stockists

#### COUNTERFEIT

- Imitation/fraudulent
- No quality assurance
- Unknown ingredients
- Unsafe to use
- Stored improperly
- Sold without skin analysis/consultation
- Cause damaging skin reactions

As a company, neither Environ SA nor DermaConcepts, the authorized Exclusive USA Distributor, sell to these online sites, therefore, we cannot assure the authenticity or condition of any Environ products that they sell.

Due to the potency and varying strengths of our products, Environ stockists require a consultation with a skin care professional before a person purchases products. Unfortunately, these on line sites will sell consumers incorrect products for their skin type, as well as give false and misleading information, leading to an adverse reaction or loss of money.

**Please avoid becoming a victim of unauthorized online sites!**
