

10 HOURS OF CONSULTATION via teleconference

- The cost of the registration does include 10 hours of group consultation.
- These consultation sessions will provide an opportunity for participants to deepen their understanding of EMDR Therapy and integrate EMDR Therapy into their practice.
- Participants will be discussing real active cases and receive feedback and support on their growth.
- Small focused study projects will also facilitate greater learning in the consultation process.
- Because these sessions will occur via the internet, minimal office time will be lost to attend.
- The group sessions will be scheduled during the part 1 course for all 10 hours. These sessions will occur M-F between 8-5pm. There will be a chance for 1 make up consultation session. If more are required, the training participant will be responsible for paying an additional fee for each hour of make up consultation.
