

Vision and Learning

- Estimated 20-25% of children in the US have a vision problem that may affect learning
- Eye development/visual changes occur throughout childhood
- Maryland law – school vision screening in Kindergarten, 1st, and 8th grade; 7 year gap
- Multiple optometric/ ophthalmology organizations recommend yearly to every other year vision screenings
- We added 3rd, 5th, 6th grade to close gap

Vision screening

Grade	Class Total	Opt Out	Absent/Retest
3 rd	163	3 (1%)	6 (4%)
5 th	186	4 (2%)	22 (11%)
6 th	183	7 (4%)	11 (6%)
Total	532	14	39

KIPP's Visual Acuity Needs, 2016

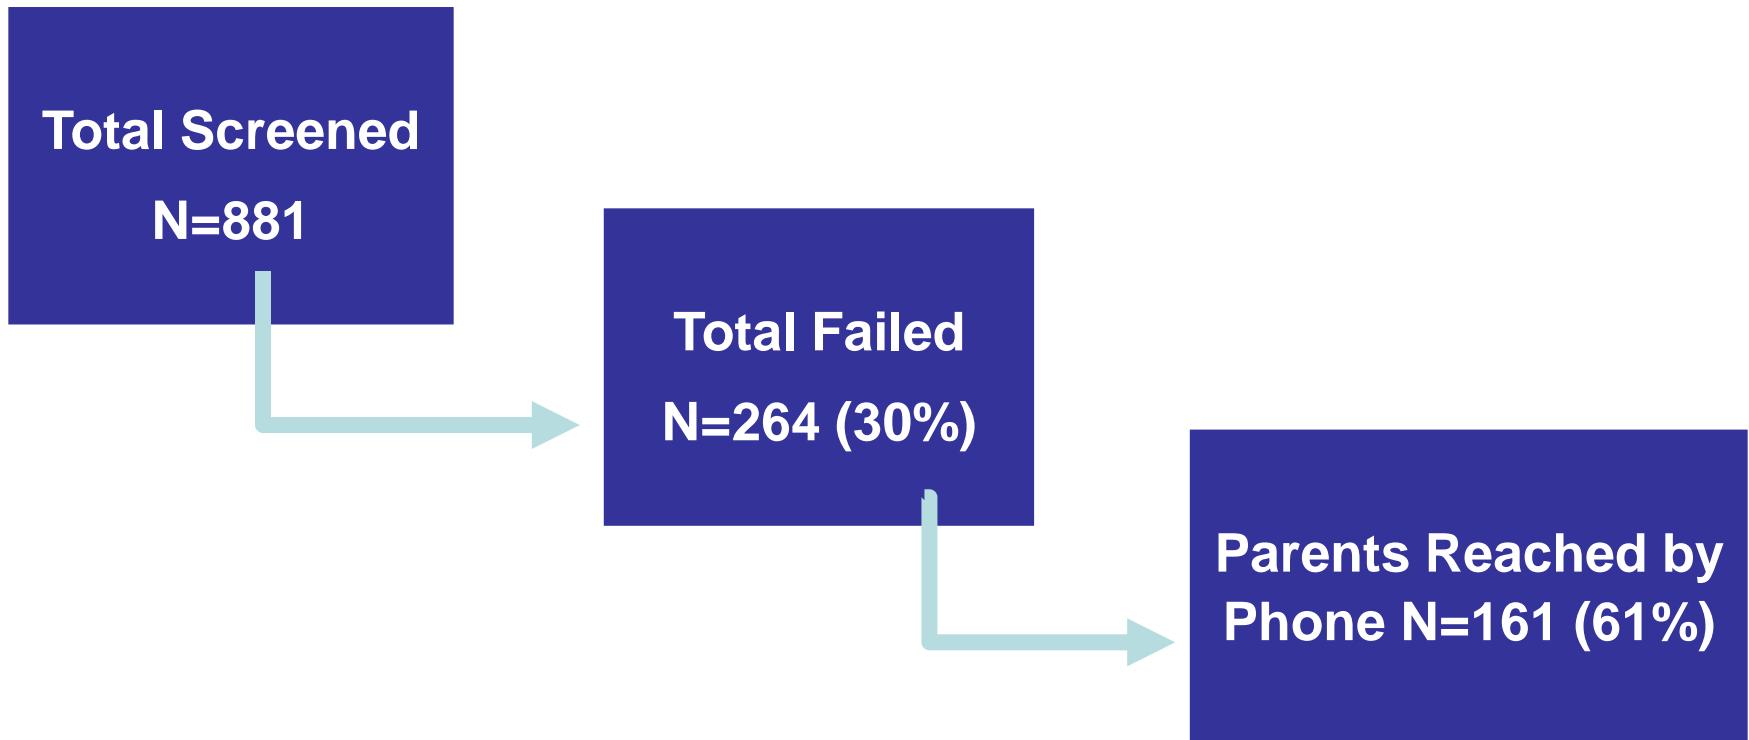

Grade	N	Fail (Acuity)	Pass (with Glasses)	Total Prevalence
