Do you want to be more involved in a decision-making group but not sure where to begin? Are you tired of feeling lost or ineffective during meetings instead of feeling like an active member of a decision making group? So many times we are on committees or in meetings but don't know what the process is or how to fully participate. This workshop will help you gain strategies to be able to navigate decision-making groups.

Registration details will be available soon on the ECAC online calendar found at:
