what we're teaching

The students were reminded this week that Jesus paid the price for their salvation. That price was death on a cross. This is a precious gift and displays God's extreme love for us.

WHAT THE EXPERTS ARE SAYING...

Engage Families in Ministry

It takes a lot of work to develop healthy kids. As a ministry it is our goal to work WITH you, to help your children grow in the Lord. Take a minute to read the attached study and share your thoughts on this developmental framework.

"DEVAUX"TIONAL

We played a game on Sunday that involved a lot of running. I was able to keep up for about half of this game. It didn't help that it was ninety degrees but I expect myself to be in better shape. I was an athlete in college and my health and fitness were always a priority because I wanted to perform at a high level. As children of God, we should approach our relationship with Him in much the same way as an athlete preparing for contest. I would argue that we should do it with even greater intensity. Otherwise, what happens when life has us tired? Do we have to step out of the game or does God's strength keep us going?
