

# AMAZING NEW PRODUCT

## OptiHemp Liposomal Hemp Extract 300

OptiHemp's patented HempSorb™ delivery system is absorbed up to 10 times better than its oil-based competitors, whose absorption rates are as low as 6%, while OptiHemp has an amazing absorption rate of 50% to 60%. (Scroll down to see the comparison chart below for more ways in which OptiHemp is superior.)

That bio-availability helps you save money, because it takes a lot less of this powerful extract to achieve the same incredible health results. And in case you're wondering, hemp is not marijuana, and it has no psychoactive effects. Hemp extract is legal in all 50 USA states.

	<b>OptiHemp Liposomal Hemp Extract 300</b>	<b>Oil-Based Hemp Extract Competitors</b>
<i>Bioavailability</i>	Liposomal delivery mimics mother's milk; patented process called HempSorb™; highly bioavailable; about 50% to 60% absorption	Only about 6% absorption, so you need to take a lot to see any effect
<i>Source of hemp plant</i>	Organically grown; non-GMO; no pesticides, herbicides, or fungicides	Many are not organic and may be GMO
<i>Extraction method</i>	Natural extraction method that uses no heat, no high pressure, no solvents, and no alcohols, so it maintains the integrity of the nutrients in the hemp plant; a more expensive process, resulting in much higher quality	Extracted with high heat, chemicals, solvents, or alcohol, all of which negatively affect the nutrients in the hemp plant
<i>Potency</i>	Due to much higher bioavailability, only need about 1/10 the quantity to get the same health benefit	Need to take 10x as much to get the same health benefit

Renowned health expert, keynote speaker, and author Dr. Sherrill Sellman, N.D. has just released a new book, *Hemp Health Revolution: The A to Z Health Benefits of Hemp Extract*, in which she explains how hemp extract works in the body to improve health. She discusses how it helps our bodies to achieve homeostasis, or balance, and helps to decrease inflammation, reduce pain, and promote better organ function.

Dr. Sellman is the author of three bestselling books: *Hormone Heresy: What Women MUST Know About Their Hormones*, *What Women MUST Know to Protect Their Daughters from Breast Cancer*, and *Chia: Return of the Ancient Seed*.

While OptiHemp does not heal or cure anything, its ability to help the body return to homeostasis can improve many if not most types of health conditions. Here are just a few of the conditions Dr. Sellman discusses in her book as she explains how hemp extract can help to improve their symptoms:

ALS (Lou Gehrig's disease)  
Alzheimer's  
Anti-aging  
Arthritis  
Asthma  
Autoimmune conditions  
Bone health  
Cancer  
Chronic inflammation  
Chronic pain and neuropathy  
Diabetes and metabolic disorder  
Endocrine disorders  
Epilepsy and seizures  
Fibromyalgia  
Gastrointestinal conditions such as colitis, Crohn's, celiac, IBD, IBS  
Glaucoma  
Heart disease  
Kidney problems  
Lupus  
Lymphedema  
Menopause  
Mental issues including anxiety, stress, depression, bipolar, PTSD, and schizophrenia  
Multiple sclerosis  
Obesity  
Parkinson's  
Sleep disorders  
Strokes and TIA

## **Why OptiHemp Is Superior: Unparalleled Purity, Non-GMO, Organic Quality**

According to Dr. Sellman, the CO2 extraction method, which is used to create OptiHemp, is by far the best method because it doesn't involve high heat, chemical solvents, or other damaging processes.

This is the most expensive method, but it results in the highest-quality hemp extract possible, ensuring the greatest bioavailability. And because it's so much more absorbable, you save money because you need less of it to get great results!

OptiHemp is made right here in the USA from organic, non-GMO hemp plants, so you know you're getting the purest hemp extract available.

## **OptiHemp's HempSorb™ Liposomal Delivery System Delivers Better Bioavailability**

The key to OptiHemp's effectiveness lies in its patented HempSorb™ liposomal delivery system. Hemp oil, in its natural form, is a sticky, dense oil. Getting any oil-based substance to pass through a cell wall is challenging, as the absorption rate can be greatly reduced. This means very little of the active ingredient can be absorbed by the cells. So, you may need to take a much higher dose in order to benefit -- or the formula may not be absorbed at all.

Enter liposomal delivery technology. Liposomes are tiny hollow spheres that have the ability to carry both water-soluble and fat-soluble compounds very efficiently through the body and into cell membranes. You can think of them as very small, nano-sized packets that are the delivery system allowing for rapid absorption of nutrients into the cell.

## What People Are Saying About OptiHemp

### **Making a Huge Difference with MS Symptoms**

"When I started taking hemp extract, it was like the light switch flipped! My pain eased. The tingles became less frequent, and I found myself more comfortable in general. I started sleeping better, too! I am not cured by any means, but I find things to be SO much more manageable now." Kaci T., age 36

### **Eliminating the Need for Opioids**

"I was in a car accident and had a broken neck, 9 broken ribs, and a brain bleed. They started me on an opioid painkiller, but after a few days I stopped taking it and started using hemp extract. My pain level dropped dramatically within an hour, and I have not experienced any side effects." Mary G., age 68

### **Improving Depression, ADD, and Memory**

"I've been taking liposomal hemp extract for depression, ADD, and memory. My brain function is much better, I have no pain or inflammation, and my energy level is sustained all day long without feeling tired and run down. I can truly say that using hemp extract has changed my life dramatically." Michael S., age 71

### **Amazing Relief for Rheumatoid Arthritis**

"I am in awe. My wife was in such a flare up with her rheumatoid arthritis that she couldn't open her hands. She couldn't stand straight, and her body was swollen. She took some liposomal hemp extract and in about 30 minutes, things slowly started to change. She still had some stiffness, but her pain was gone! She was sobbing because she could open her hands." Mondo

### **Severe Back Pain Resolved**

"I have osteoarthritis and a herniated disk, and I had been having severe back problems for well over a year. I feared that I would get addicted to the strong medication being prescribed and wanted another alternative. I tried floating, massage, physical therapy, swimming, and stretching to try to lessen my back pain, with very little improvement. Then I tried the OptiHemp liquid, and thus far it has been more effective than anything I've tried. It also helped my sleeping." Barry G., age 59

## OptiHemp Improves Pet Health, Too!

### **Rejuvenating a Poodle**

"My 3-year-old poodle, Alexia, now has much more energy and a shining coat of fur, thanks to hemp extract!" Michelle

### **Helping a 15-Year-Old Lab with Arthritis**

"My 15-year-old lab, Zena, had been suffering from lesions and arthritis for several years. After a week on hemp extract, Zena was able to do things she could not do for many years. Her pain level has decreased, and she can go on long walks." Sandy

### **Eliminating Hip Pain in a Great Dane**

"My 4-year-old Great Dane, Rex, had hip problems and was limping and could not move around very well. After adding hemp extract to Rex's food for 2 weeks, the results were dramatic, as he started to move around with a lot more vigor and flexibility. Now, after 6 weeks of use, Rex is walking normally and I could not be happier." Nick
