Parent/Child Developmental Music Classes

Our board certified music therapists (MT-BC)
 design classes to provide children of all abilities with
 developmentally appropriate and enriching
 opportunities to sing, move and explore musical play.

Classes are taught by highly trained MT-BCs who
 provide **quality live music**. Sessions are playful and
 designed to meet developmental needs of the
 students as well as provide a positive bonding
 experience with parents/caregivers. Class size is
 limited to 10.

Our classes will surely be a highlight of your day!
