## Bringing Harmony to Life

### Individualized Music Therapy & Adaptive Lessons

We provide clients with board certified music therapists to meet their individual needs. Therapists utilize techniques that are based on research and clinical practice in music therapy and related professions, such as speech and occupational therapy. Our therapists travel to your home or facility and collaborate with your current therapy team.

#### What services do we offer?

- Individualized music therapy and adaptive lessons for all ages
- Group music therapy services for children and adults
- Pediatric rehabilitation services
- Group music therapy and music enrichment classes at preschools and childcare centers
- Group music therapy for English Language Learners
- Music therapy for hospice patients, palliative care and individuals with dementia
- Consultative services
- Presentations

**Shelly Peterson, MA, MT-BC, Neurologic Music Therapist-Fellow and Owner/Director**

We serve individuals in their home environment. This helps our clients feel comfortable and safe from the start which allows them to benefit more from sessions, make an easier transfer of skills to home as well as their daily routines, AND is convenient for families.

Our specialties include but are not limited to: Autism, Brain Injury, Cerebral Palsy, Cochlear Implant Recipients, Congenital Birth Defects, Congenital Heart Defects, Developmental Disabilities, Down Syndrome, English Language Learners/English as a Second Language, Hearing Impairment, Oral Aversion, Pediatric Rehabilitation, Preschoolers, Seizure disorder, Short-term Memory Loss, Special Healthcare Needs, Young children and their caregivers, Premature infants and their caregivers.

Call Shelly today to schedule a free consultation by phone!
