Biochemical Oxygen Demand Training Introduction, Demonstration, and Troubleshooting

PROGRAM: Biochemical Oxygen Demand (BOD) is an empirical measure of the biological consumption of oxygen in a sample, usually required for regulatory oversight, waste loadings of treatment plants and for industrial monitoring and billing related to regulatory oversight costs. BODs can be time demanding and frustratingly unpredictable. This training focuses on how to get the most out of your BOD experience and provide some solutions to BOD testing Challenges.

PROGRAM: **David Trauger, Senior Laboratory Technician, City of Fresno, Wastewater Management Division**
Mr. Trauger has worked for 31 years in the wastewater laboratory at the Fresno/Clovis Regional Wastewater Reclamation Facility and has been the Senior Laboratory Technician for the last 27 years. He holds a Bachelor of Science in Chemistry from Fresno State.

Terran Nyberg, Laboratory Technician, City of Fresno, Wastewater Management Division
Ms. Nyberg has worked for over 15 years in the wastewater laboratory at the Fresno/Clovis Regional Wastewater Reclamation Facility as a Laboratory Technician. She holds a Bachelor of Science in Biology from Fresno State.

SCHEDULE:

12:00-1:00	Check-In & Lunch
1:00-2:00	BOD Introduction - David
2:30-3:30	BOD Demonstration and troubleshooting - Terran & David
3:30-4:30	Question and Answer, followed by a Tour of the Fresno WWTP Laboratory

LOCATION Fresno/Clovis Regional Wastewater Reclamation Facility
5607 West Jensen Avenue; Fresno, CA 93706

Ask the guard at the gate for specific directions.

A driver's license (or other government ID) is required for admittance to the plant.

PRICE: \$20 (Members) \$25 (NON-members) (includes lunch)
