TRAINING SESSION/DINNER

Automation of Routine Analysis for; BOD, COD, pH, and Conductivity

SPEAKER: Art Ross C.E.T. – Product Specialist Automated Environmental and Digestion Systems

Art has been working at SCP SCIENCE for over 25 years. He has been the head of R&D for 10 years during the creation of the digestion systems for environmental analysis. In his current position he manages the EasyPREP product line for environmental analysis (BOD, COD, pH, Conductivity, and Alkalinity) along with sample digestion (Microwave and graphite digestion blocks). In his role at SCP SCIENCE he works with their Application Chemist and end users around the world to train and develop automated environmental equipment

DESCRIPTION:

The presentation will demonstrate how automation can improve the quality of your BOD, COD and other results with a focus on increasing the consistency of results. Automation can improve your labs productivity by freeing up your Chemists by applying their expertise elsewhere.

Location: Toledo's on Fresno & Shaw
367 E Shaw Ave, Fresno, CA 93710

Schedule: 5:30 p.m. – 6:15 p.m. SHOP TALK
