

Esteemed Business Partners,

We are getting ready to start our Class of 2018 senior internships at Cathedral City High School. We are reaching out to you to ask if you would be willing to host senior student intern(s)/volunteer(s) for your business. Our DATA (Digital Arts Technology Academy) senior students have been trained in: Photography, video production, animation, graphics, amongst many other skills. Please visit our website: <http://www.digitalartstechacademy.us/> to view more of what they can do.

Senior students are required to complete 30 total hours at their respective internships for the schoolyear (8/9/17-6/8/18). We will work around the days/hours that work best for you. Our school district provides liability coverage for our students while at their internship. These intern positions are unpaid, unless you decide otherwise. The experience they gain with you is invaluable given that they can include it in resumes, letters of recommendation for college/university and most importantly exposure to professional, real world, hands-on experience. Also, this will allow them the opportunity to utilize their DATA skills to enhance your business.

If you would like to support our future workforce and leaders by hosting an intern/volunteer, please [Click Here](#) (*updated link*) to fill out a quick form to help us place the best match for the position.

We appreciate and value you in our community and thank you for the opportunity to help shape/create the entrepreneurs/bosses/leaders of our future! If you have any questions, please contact us at the phone number below or email: crussell@psusd.us. We will be reaching out to you in the next few weeks to follow up.

Thank you for your time,

DATA Team
