

Membership Corner – Karen Miller, CFP® & Dusty Hoetger, CFP®

Hello Everyone and Happy Summer!

We want to thank our members for all they do to make this chapter and community the wonderful place it is. All of us, as members, are fortunate to be part of such a connected group of individuals. If you come across anyone you feel would benefit from becoming a member, please encourage them to attend a chapter meeting, mixer, or contact a board member.

By the time you read this we'll have had our second mixer with the South Placer Estate Planning Council (SPEPC). We joined them on June 20th at La Provence in Roseville on the Terrace. This time the attendees included various attorneys, financial and insurance professionals, a home care company, professional fiduciary and a representative from the Placer Community Foundation.

CalCPA is hosting a social mixer on Thursday, August 3rd at Il Fornaio in Roseville which is open to CPA's and non-CPA's. This is a good opportunity to mix and mingle with a different group. Here is the link to register:

<http://www.calcpa.org/events-and-programs/event-details?id=380ab7a6-4b46-4f19-9b4f-c7a464ebe0cf>

We tell you this every quarter, but these mixers really are a great way to meet members of our professional community in a casual environment. We promise you will have a good time if you join us!

Other ways to get acquainted with your community are volunteering with your local chapter and by attending conferences. If you missed NorCal in San Francisco at the end of May, you still have other opportunities this year.

If you are interested in attending the FPA National Conference in Nashville, TN from October 2-4 this year, use the **NASH17CM** discount code to save \$50.00! Register by July 14, 2017 to take advantage of

the Early Bird Discount.

This conference is built around the sharing of practical strategies, tactics and knowledge, all designed to help you take immediate action when you return to the office. Who doesn't want that?! And as a Bonus: 2 hours of Ethics are offered on October 4th. If you want to read more about this event and find out about others, visit <https://www.onefpa.org/> and checkout FPA Events and Conferences under What's Trending.
