FOR IMMEDIATE RELEASE

Introducing the NEW ZR94 Caliper

**Shown with optional nickel plating*

(CLOVER, SC) 11/29/2016 - PFC Brakes

Staying true to our, Lighter, Stiffer, Cooler, Quicker mantra, we have taken the best features of the ZR34 and made it better! The NEW ZR94 caliper features a robust internal fluid passage system, adding strength and further eliminating the risk of damage or failure. By removing both the external cross over, and noncrucial material, the ZR94 is lighter and fits a much wider range of applications.

Applications:

Street Car Kits / Rally / Super Late Model (*Asphalt*) / Pro Late Model (*Asphalt*)
Super Late Model (*Dirt*) / Crate Late Model (*Dirt*) / Big Block Modified (*Dirt*)
Tour Modified (*Asphalt*) / TA2

Now In Stock!

Questions? Let us know. Call Randy Keene at 803.415.5393 or at shoot him an e-mail at rkeene@pfcbrakes.com.

About Performance Friction

PFC Brakes are the top choice in motorsports—winning more championships than any other brake on the market. PFC Brakes is the official brake supplier for the International Porsche Cup Racing Series including Porsche Cup Germany, Japan, Great Britain, Australia, and the United States. PFC is also the supplier for the USF 2000, Pro Mazda, and Indy Lights series. PFC is the official brake supplier for Formula Renault, and the Renault Clio RS R3T Rally car. PFC continues to produce the benchmark race pads for NASCAR, with 31 out of 43 cars at Bristol 2014 using PFC. 97 out of 190 cars at the 12 Hours of Sebring were equipped with PFC product. PFC delivers only the best brakes in the market-proving to be the number one choice for motorsports teams across the globe.
