CELEBRATING 2016 INTERNATIONAL YEAR OF PULSES DECEMBER 9, 2016

Register NOW!
WPGA ANNUAL MEETING
 REGISTRATION DEADLINE EXTENDED

**2016 Annual Meeting
 Tentative Agenda**

Tuesday December 13

6:00-8:00 pm Optional Vendor Set Up

Wednesday December 14

7:00 a.m. Past & Present Chairman's Breakfast

7:00 a.m. Registration Opens; Vendor Set Up

8:00 a.m. Welcome & Opening

*Jon Olson & Cole Riggers
 Poster Session & Vendor Exhibits*

8:15 a.m. Pesticide Credit Session

10:15 a.m. Break

10:30 a.m. RMA Announcement

Ben Thiel, USDA RMA

11:30 a.m. International Year of Pulses

12:00 p.m. Luncheon (Gold & Silver Room)

*Lentil Family of the Year Award
 Guest Speaker—TBA*

1:30 p.m. North American Marketing Campaign

Tim McGreevy, USADPLC

2:30 p.m. ID & WA Commission Reports

3:00 p.m. WPGA Annual Meeting

3:30 p.m. Market Outlook Report— Panel

Peter Klaiber, USADPLC

4:00 p.m. Cooking Demonstration

Ron Pickarski, Eco-Cuisine

5:00 p.m. Pulse Pillar Hosted Reception

6:00 p.m. IYP Pulse Dinner Celebration

*LAF Raffle Drawing
 Special Guest Cynthia Sass,
 Pulse Ambassador, Author, and
 NY Yankees Sports Nutrition Consultant*

**2016 WPGA
 ANNUAL GROWER MEETING**

 **WPGA**
 Western Pulse Growers Association

*Wedn., December 14th
 Best Western University Inn
 Moscow, Idaho*

CLICK TO REGISTER

WWW.USAPULSES.ORG/WPGA

As preparation for the 51st Annual Western Pulse Growers Association annual meeting is underway, the registration site at www.usapulses.org/WPGA experienced some puzzling issues that prevented people from accessing the site. Due to this, the early registration deadline has been extended through Monday, December 12th. The agenda for the event is on the left.

If you have any questions regarding registration, call 208-882-3023 and ask for Mike Shelton or Kim Monk, or email kmonk@usapulses.org

Chef Ron Pickarski is the United Nations Food & Agriculture Organization's North American Pulse Chef and will be offering a cooking demonstration at 4pm.

Nutritionist, author and sports nutrition consultant to the NY Yankees, and 2016 U.S. Pulse Ambassador, Cynthia Sass will be the keynote speaker at the WPGA Reception.

USDA + USA Dry Pea & Lentil Council = pulsED
SCHOLARSHIPS AVAILABLE!

The first 40 registrants of the new PulsED grower education program, offered by the USA Dry Pea & Lentil Council and the Western Regional Office of the will receive a \$50 rebate on WPGA Annual Grower Meeting registration!

Here's what you need to do:

1. Register for the WPGA Grower Meeting
2. Register for the PulsED grower series at <http://www.usapulses.org/pulsED>
3. Attend at least one of the six PulsED live webinar events
4. Wait for your scholarship check!

**EARLY REGISTRATION EXTENDED
 THROUGH MONDAY, DEC. 12TH

After 38 years GARY BERGLEY RETIRES

After 38 years with the Washington State Department of Agriculture (WSDA), Gary Bergley, the Office Supervisor of the Colfax Grain Inspection Office will hang up his hat. Today is Gary's last official working day before he begins his retirement, according to an email released by the WSDA.

Of those 38 years with the WSDA, many of them as a supervisor, Gary has earned high praise and respect from his employees, WSDA management, WSU/ARS employees, as well as the entire pulse industry.

USADPLC CEO Tim McGreevy sums it up well, "Gary has been a great leader of the Colfax WSDA office. His expertise has been invaluable to the dry pea, lentil

and chickpea industry in Eastern Washington. I wish Gary all the best in his retirement from WSDA."

Don Potts, WSDA Grain Inspection/Warehouse Audit Manager seconds those sentiments, adding that during Gary's career he has seen a tremendous amount of change with the Grain Inspection Program and has effectively helped with the change and adapted to make things better.

"He has been a pleasure to work with and has made my job easier as he has performed above and beyond what was expected of him," said Potts. "I will miss him on a professional level but even more on a personal level."

Gary plans on taking a three-week vacation right away and then when the weather cooperates he is going to enjoy kayaking with his wife Kathy, which may be a feat of planning since Cathy is still in the workforce (image top left).

"I came to work for WSDA right out of college and am happy to say that both my wife Cathy and I have changed and grown into experienced, successful people. I wish everyone the best and maybe I will see you down the road."

Join the WSDA and the USADPLC in wishing Gary a healthy and long retirement after all of the wonderful years that he has spent working with the pulse industry. Good luck, Gary!

	\$69,759,578	\$44,059,603	\$177,334,650	\$102,231,961	\$500,036,079	\$408,813,790	\$468,512,083	\$404,173,056	\$445,383,752	

After the record-setting month for exports in September, we expected to see a decrease in export volumes in October. October exports did in fact decrease for the month, but the pace of exports still remained decidedly hot.

DRY PEAS

Pea exports dropped from almost 100,000 MT in SEP to 38,600 MT in OCT and most of that decline came in shipments to India. Shipments to China and the Philippines declined too, while shipments to Mexico and Pakistan increased. One likely factor in the drop in pea exports was simply harvest timing. With peas harvested first, processors got started on pea processing in AUG and early SEP while lentils and chickpeas were still coming in, but day-by-day processors were able to dedicate more processing capacity to the strong market demand for lentils and chickpeas, pushing peas off the processing lines.

LENTILS

Lentil exports also fell in OCT compared to SEP, but the monthly total was still good enough to be the 2nd largest monthly lentil export volume we have ever seen – second only to SEP, of course. ‘Win, place and show’ remained the same as for the prior month – India, Canada and Spain, and it was nice to see export volumes increase to Spain, Mexico, Peru and Turkey. After two months in the 2015-16 marketing year, we had exported 65,000 MT of lentils, equivalent to 27% of the 2015 lentil harvest. In contrast, we have exported about 106,000 MT in the first two months of the 2016-17 marketing year, but because of our record-setting production volumes, that represents only 19% of the crop. We have a long way to go to empty those bins this year.

CHICKPEAS

As with lentils, our chickpea exports fell in OCT compared to SEP, but also as with lentils, OCT was the 2nd largest monthly chickpea volume on record -- second only to the prior month. In last month’s export commentary, we noted that Canadian buyers were “scooping up” US chickpeas to cover their positions after weather decimated the Canadian chickpea crop. As we predicted last month, Canadians did take even more chickpeas in OCT than in SEP, becoming our leading chickpea export market for the month. India, Spain, Pakistan, Italy and Turkey all took nice volumes as well.

Statistical Chart by Tayebeh Soltani, Assistant Marketing Manager.

Analysis by VP of Marketing, Pete Klaiber and Tayebeh Soltani.

Final note: Along with the rest of the pulse-producing world, we are watching the pulse plantings in India. After two years of poor pulse harvests, India had a good monsoon season in 2016, setting them up to produce a record pulse crop with the winter crop that is now being planted. Plantings however have been proceeding slowly – in part because of weather and in part because of disruptions in India’s financial system – and as of last week, pulse acres planted were at ‘average’ levels. India will need to do better than average in plantings to have the bumper crop they are hoping for. With four weeks to go in the planting season, they may get the weather and the financial relief they need to ‘go big’ on pulses this season, but at this point there is still a lot of uncertainty.
