

Newly Passed Legislation (awaiting signature by the mayor):

Int. 81-2014: This will require DOB to notify OSHA, City Council and the mayor when hazardous violations are issued that can endanger workers.

Int. 1421: This will require crawler cranes to be equipped with a GPS.

Int. 1433: This will require the DOB to report all construction accidents resulting in an injury or fatality to a construction worker or member of the public on its website (and include union affiliation or not).

Int. 1435: This will require Crawler cranes to be equipped with a data-recording device (black-box).

Int. 1446: This will require new licensing endorsements for Class B HMO licenses (Crane Licenses) to operate large cranes or longer booms.

Int. 1448: This will require any new building or demolition that is taller than 4 stories to require a site safety plan.
