Alzheimer's and other dementia-related illnesses are diseases not just of individuals, but of the families and communities in which we all live. Please join us to witness, explore, celebrate, and support the Cape's 10,000 individuals and caregivers living with cognitive disease. All proceeds benefit the Alzheimer's Family Support Center's array of free supportive services. For tickets and information, please call (508) 896-5170, or visit our website:
