

A Place Where Friends Gather

My early **learning** program is
a **building** made of **blocks**,
just like the ones we use to build with.

It's a **place** that's always **fair**, and a place to **relax** at;

Lots of voices talking about things **we are learning**.

Giggling sounds from **giggling** friends...**happy sounds**;

Like a **fan** making a **whooshing** sound,

as it **blows** *hanging decorations*;

And **blocks** that make a **crashing sound** when they **tumble down**.

There are **round colorful beads** that we can string together;

Grass we **gROW** in **cups** that *smells like spring*,

And as **we run**, the **fresh air** whipping through our hair.

My place is **good like a book** or **walk in the park**.

A place that holds **childhood memories**, feels like
a **clubhouse** and smells like pizza.

My early **learning** program is a
special place because...

I **see** friends...I **hear** friends...I **hug** friends...I **have** friends.
