

## Get Involved with PMI

---

Last month, several members of the chapter's senior leadership team attended PMI's North American Leadership Institute Meeting (LIM) in San Diego. The LIM is an annual gathering of leaders of PMI Chapters around the world. They gather to learn from one another and to share ideas for making the membership experience more empowering and exciting.

[This video](#), featuring conference participants, illustrates what can happen when you as a member get involved in volunteering and advance into a senior leadership role. As the video says, "Great things happen when you get involved!"

If you are curious about getting involved with PMINYC, reach out to the chapter's leaders and those who attended the conference in San Diego:
