

I enjoy coming to work every day because I get to embrace the beauty that the campus has to offer as well as the people that make my work enjoyable. I have gained an abundant appreciation for the religious life that the Sisters live. I have learned about the happiness and well-being that they strive for, not only on our campus but in our community and beyond. I don't merely feel that this opportunity has strengthened my resume, but more so my outlook on life and the career I hope to pursue. I cherish working here and hope to continue my work at the Sylvania Franciscan Village in the future, as it has shaped me into the individual that I am.
