The U.S. Small Business Administration (<https://www.sba.gov/>) is a fantastic one-stop online resource for those looking for assistance, education, and information specifically geared towards their small business ventures.

*“The SBA helps Americans start, build and grow businesses. Through an extensive network of field offices and partnerships with public and private organizations, SBA delivers its services to people throughout the United States, Puerto Rico, the U. S. Virgin Islands and Guam.”* (from website)

**Do you need any level of assistance starting or managing your business? Do you have a great idea for a business, but are not sure how to write a successful plan? Are you searching for a loan or a grant? Are you interested in learning more about contracting with the government for a business opportunity? Would you be interested in free online courses and tutorials geared towards enhancing the full realm and spectrum of your business acumen? Could you benefit from a better marketing plan?**

If any (or all!!) of these questions sound relevant to your situation, then this would be a valuable resource to investigate.

Please contact the Half Hollow Hills Adult Reference Team for more information about using and accessing this valuable government service.
