

## Traffic Safety

When you are out and about on campus, please help the Department of Public Safety maintain traffic safety by reporting any traffic signs or street name signs that are-

- 1) Missing
- 2) Partially or fully obscured by vegetation or trees
- 3) Turned sideways or backwards
- 4) Vandalized (e.g. graffiti)

We also ask that you report any “blind” corners that are created by an overgrowth of vegetation.

To report any of these sign issues, please call the LBRE Operations Center at **(650) 723-2281**.

Finally, if you have any other safety concern about a particular street, intersection, etc., please send me an email. I will follow up with a site review to determine what improvement may be necessary to address the safety issue.

With your help in reporting these issues, a traffic collision may be prevented!
