Learn to Swim

GENERAL INFORMATION:

Our goal is to offer quality aquatic programming & to facilitate the best possible learning environment for swimmers. Our instructors have been trained and prepared to teach swimmers at varying stages of aquatic development.

The Aquatics Department maintains an open door policy. Please contact Darlene 330.721.6942 if you have any questions or concerns. For your child's safety we have a head lifeguard & lifeguards on duty at all times during our programs.

REGISTRATION:

Mass Registration is held twice a year: August for the fall/winter program & May for the spring/summer program. In order for a child to register during member registration, the child must be a MCRC Member. A certain number of spots will be held through each season to ensure participants can progress to the next level. After the mass registration dates, there will be continuous registration until all classes are filled. On the last day of class your child will be given a report card that will indicate if the child moves up to the next level or remains at the same level.

HOLD SPOTS:

Although we hold spots for the next level, they are limited & will only be held until the end of the day the class ends. The class must be the same day & time unless an open, non-hold spot is available in another session. To ensure that you are justified to have a hold spot you must present one of the following documents: report card or toddler participation certification. Any hold spots that were not taken will be first offered to the wait list the next day & then opened to the general public. Please note, some classes will not have a following class in which to enroll!

Swim Registration: Saturday, August 27

Member Registration begins at 8:00am

Non-Member Registration begins at 11:00pm

Numbers will be distributed at 10:30am

NO SWIM CLASSES ON:

* Nov 23, 26; Apr 10, 12*

All Non-Members are required to show a photo ID in order to enter the facility

The Unexpected Benefits of Learning to Swim

"I can swim the whole way across the pool!" Hearing those excited words coming from a beaming child is about as rewarding as it gets. Not only has that child learned to be safe in the water, but they have also gained confidence and learned how to make healthy lifestyle decisions. As parents, we sometimes need to mask the 'good for you'. Our Children may not know all the benefits of learning to swim, but we sure do...

GAINING WATER SAFETY KNOWLEDGE - Learning to swim is a life skill. According to the Centers for Disease Control and Prevention, drowning is the second leading cause of death for children ages 1-14. During swim lessons children learn more than how to stay afloat; they learn to have a healthy respect for water and to follow rules that save lives and prevent tragedies.

DEVELOPING NEW SKILLS - According to the American Psychology Association, learning a new skill helps promote healthy brain function. Children learn best when they are exposed to a variety of ideas, experiences, skills and materials. Learning something completely new helps children develop critical thinking skills that will help them adapt to a variety of situations.

BUILDING CONFIDENCE - Learning to swim gives children a sense of accomplishment and pride in their abilities. The more kids complete new tasks, make friends, and have fun doing it, the more confidence they'll gain in themselves.

GETTING EXERCISE - It's not always easy to get kids excited about moving, but when they're in the pool they hardly notice how much aerobic exercise they're getting. Swimming is good for the heart, lungs, and muscles.

Know the Unexpected & encourage your children to swim!
