# SEA SNORKELING & CAVE SWIMMING EXPEDITION

Experience a unique snorkeling adventure during your stay on the Mayan Riviera. This expedition combines a visit to a semi-virgin inlet on the Caribbean Sea and a snorkeling journey to one of the largest underground river systems in the world.

Your group will start our expedition towards a beautiful inlet in the Caribbean waters, one of the best-kept secrets on the Mayan Riviera. The waters of this hidden paradise are clear, calm and inviting, making it a heaven for snorkeling. Underwater rock formations create a fascinating sub-aquatic terrain and the ideal habitat for exotic marine creatures.

Shortly after, we will continue our journey. As you swim in the crystal waters of the sacred underground river, marvel at the natural underwater formations of stalactites and stalagmites, everyone will undoubtedly admire one of the most impressive underground caverns in the region, full of mystery, charm and beauty.

# MAYAN RUINS OF TULUM

Tulum's greatest attraction is its location. It stands on a majestic cliff facing the sun rise as it looks out onto a spectacular vista of vibrant aqua and turquoise waters of the Caribbean Sea. The Mayan ruins of Tulum are the third most visited historical site in all of Mexico.

Tulum is the only known archaeological site located by the sea. The city was occupied by Mayans up until the Spanish conquest of the Yucatan peninsula, but was completely abandoned by the end of the 16th century. Today, parts of the Mayan ruins have been restored for tourism purposes and although local Mayans continued to visit the temples to pray, these acts were abandoned in the late 20th century.
