## **Terms & Conditions Antarctica FULL DAY program 2018-2019 Season**

King George Island is located at the northern end of the Antarctic Peninsula. This is one of the most remote places on earth; therefore, it is hard to reach. This unique and fascinating destination presents special challenges; it is difficult to find modern life comforts and the weather is highly unpredictable.

The Antarctica Full Day is a safe program, developed by high level professional with over 20 years of experience in the Antarctica. However, in King George Island there is no hospitals or emergency units, therefore, DAP Antartica requires passengers to have appropriate insurance that includes medical evacuation.

To land safely, a clear sky with perfect visibility is required, that is why in many cases trips need to be postponed while waiting for adequate weather conditions or an improvement in the condition of the landing strip.

That is why having a tight schedule to do your Antarctic program it is not advisable: possible delays of several days must be considered. DAP Antartica strongly suggests that when scheduling, you consider a window of several days to gain some flexibility. Also an open air ticket for your trip back home would be a good idea to provide rescheduling flexibility.

Flying into Antarctica takes two and a half hours. First, crossing the Darwin Mountain Range, then the mythical Cape Horn, the Drake Passage, and finally arriving at King George Island in the Antarctic Peninsula. Information on weather conditions is checked via Satellite, at all times, before departure and during the flight.

Safety is essential to all operations and this is the first and most important consideration for the technical team when deciding upon the realization of any and all activities of the program. The company understands how disappointing it is for travelers to be forced to abandon their trip, that is why DAP Antartica strongly advises that all passengers carefully read these terms and conditions and purchase a trip cancellation and interruption insurance as protection against an emergency which may force them to cancel or leave the program while it is in progress.

### **Reservation and Payment**

1. The Cost of Full Day Program is of US\$ 5.500,00 (Five thousand and five hundred US dollars), per person. A minimum of 05 passengers and maximum of 06 is required for the King Air 300 aircraft and a minimum of 20 passengers and maximum of 40 for the BAe-146 aircraft.
2. To make the booking you must prepay 50% of the total program cost by wire transfer or credit card.
3. The reservation will be confirmed once the initial payment is effective. The program must be fully paid at least 30 days prior to departure date.

If payment has not been received according to these terms and conditions, DAP Antartica reserves the right to cancel the reservation, unless a change in the payment schedule has been agreed upon.

## **Cancellation and Changes of Itineraries**

DAP Antartica operations and services are highly dependant on weather conditions, so changes to the itinerary may occur, which are not under the responsibility of DAP Antartica. Such reschedules do not imply unillateral cancellation or modification of services by DAP Antartica.

**Travelers are advised to schedule a 3 days window when planning their Antarctic visit, to make the tour, in case of bad weather conditions that might postpone the program. Not considering the arrival day of passenger. If the client cannot or does not want to wait for those 3 days and has or wants to leave before the trip may be carried out, DAP Antartica will not be responsible for such situation, denying any kind of refund to the passenger.**

**DAP Antartica is not responsible for any expenses incurred by the client or client's booking agents in the process of preparing for the trip or as a result of its cancellation, including airline tickets, accommodations, special clothing, food, visa, passport fees or other related expenses.**

For this, it is the exclusive responsibility of the passenger to stay in touch with the host.

DAP will not be responsible of having vehicles or special support for their passengers, if they have not informed of these requirements beforehand, and it reserves the right to evaluate if the visit is possible or not.

### **SPECIAL CASE (Wait beyond the contracted time)**

If for any reason the visit has been postponed for over three complete days, including the original date of the flight, in such a way that it's impossible to carry out the visit inside the timeframe of the contract, and if the following conditions are fulfilled:

- a) The company has an aircraft available to keep waiting
- b) Clients can and will wait for more time

Then, the parties may agree to keep waiting beyond the original dates established in their contract. This requires the availability of an aircraft and that all passengers agree on waiting, or, that those who wish to wait further are willing to pay for the ticket of those travelers who decided not to fly beyond the dates established in the contract.

### **Penalties and Refunds**

In the case of a client's cancellation, the following penalties will apply:
