

Face Off

- ADINE BINDER, founder of FaceOff, suffered with acne as a teenager and “breakouts” as an adult. She was determined to find an alternative to the traditional makeup removers and disposable wipes that contain, detergents, fragrances and chemicals. Her goal was to develop a product that would have a positive impact on health, beauty and the environment. “I wanted a skin care product that would be safe for myself and my three young children.” Thus the next generation in makeup removal was born.
