

Employment Opportunities

Quality Control Lab Technician

Location: Rancho Dominguez, CA

Spectrum LifeSciences LLC, a high tech leading supplier of bio-filtration products, has an immediate opening for a Quality Control Lab Technician to join our dynamic team. This is a key position in our QC Lab and requires a solid performer. We seek a motivated individual with a sense of urgency who enjoys a collegial, friendly, fast-paced environment.

Job Duties:

- Tests and inspects products and processes at various stages of production.
- Perform verifications for a variety of product qualities such as dimensions, performance, mechanical, electrical or chemical characteristics.
- Compiles and evaluates statistical data to determine and maintain quality and reliability of products.
- Records test data and entry into computer worksheets for analysis and prepares graphs and charts.
- Preparation of chemical solutions used in the lab.
- Maintain laboratory operations and cleanliness.
- Monitor the effectiveness of the quality program through audits.
- Reviewing, confirming, and processing of complaints for Spectrum products.

Qualifications:

- High School Diploma or equivalent.
- Associate's degree or college level life science courses are preferred.
- 1-2 years of laboratory or manufacturing work experience.
- Computer literate.
- Detail oriented and able to multi-task in a team setting.
