## **Following Christ in this World**

Be revived while gaining ideas for inspiring a passion for justice and an interest in advocacy in your congregations. We gather for worship each Sunday with diverse opinions on how to engage with problems in our communities, country and world. Explore how we come together to have a public voice as a church and why it is important. What do we have to say about children in poverty, the diminishing middle class, refugees, immigration, and other issues important to you? Gain tools for how advocacy can accompany your social ministries.

**Bishop Gerald Mansholt, of the East Central Synod of WI** will use his years of experience serving as a faith leader and advocating for fair public policies for immigrants and refugees to talk about the state of both groups locally and in our country. What kind of voice does the ELCA have? What can we do as Christians?

**Pastor Cindy Crane of the Lutheran Office for Public Policy in Wisconsin** will explore how exercising a public voice is rooted in our history as Lutherans, and talk about how the ELCA is advocating for justice within our current climate. Share what is important to you while gaining practical ideas to take back to your congregations.

**Come and Discover** what it means to live in poverty, to be an immigrant in a new community, how real Human Trafficking is and other issues that are facing our society today. Discover tools for advocacy and how you can make a difference.
