Church consultants tell us that the best way to reach the un-churched is by planting new churches. That's why the Center for U.S. Missions, together with Dynamic Church Planting International, has developed this seminar, designed to help prepare churches for the church planting process. Explore Biblical and practical church planting strategies, timing, process, and more! Pastors, congregation members, and mission leaders are invited to learn, pray, plant, and prepare for the Spirit's multiplying work through their local congregation!

Sponsored by the North Wisconsin District - LCMS
Trainers: Rev. Dr. Peter Meier and Rev. Eric Wenger
The Center for United States Missions
