### Healthcare Data Governance: A Strategic and Collaborative Approach

#### Panel Members

**Mark Stockwell, Manager Data Governance Program, Asante**

Mr. Stockwell leads Asante's Data Governance and Data Management efforts. Mark and his extended team establish data governance strategies, tools and technologies and the operational processes and procedures that guide the maturing of a sound and sustainable program. Mark is a veteran information technology professional with over 30 year's technology and data management experience. Mark has held Manager, Director and Principal level positions with a range of companies from early stage startups to large multi-nationals including: Opera Solutions, PlacelQ, DigitalGlobe, Microsoft and Ariba.

**Lee Milligan, MD, Vice-President/CMIO, Asante**

Dr. Milligan is an Emergency Medicine physician who trained at UCLA. He currently serves as the Vice-President and Chief Medical Information Officer for Asante. He is certified in Epic build x 3 applications and is also certified as an Epic trainer. In the CMIO role, he is responsible for: ITS-Analytics strategy and management, Data Governance, the Asante Epic Physician Builder program and Clinical IT operations. For Propel Health (Oregon ACO), he serves as current chair of the fourteen-member Quality Health Management (QHM) Committee, is a leader in the Propel IT Work stream efforts and he serves on Propel Health's Board of Directors. He and his wife Jennifer have 4 children.

**Lindsey Haase, MBA, Governance and Membership Engagement Manager, OCHIN, Inc.**

Ms. Haase leads OCHIN's governance and engagement team and teaches Healthcare Innovation part time at Concordia University in Portland, Oregon. Ms. Haase enjoys the vibrant pace of the changing landscape of healthcare including her current position which allows her to promote the technology that is supporting this transformation. Having served in many roles, within the private and non-profit health care sectors for over fifteen years, Ms. Haase continues to see the need for stronger technology infrastructures across the country, and appreciates the evolution that healthcare is striving towards every day. In her free time, Ms. Haase enjoys spending time with her family and friends, or expanding her culinary and gardening skills.
