

(Screening, Brief Intervention & Referral to Treatment)

SBIRT TRAINING

SBIRT is a national best practice screening model that assists the provider community in identifying patients/clients who may have substance abuse issues and/or behavioral health concerns (e.g. depression, anxiety and stress). Screenings are brief, easy to use, and help identify at risk adults who may need additional intervention, referral and treatment. *Some SBIRT services are reimbursable by private insurance and Medicaid.*

Attendees will receive free access to the online screening tool until June 30, 2018.

United Way of Broward County, with the generous support of the Humana Foundation, is providing **free trainings** to Broward County medical and behavioral health professionals. All trainings will be held from **9:00 a.m. - 4:00 p.m.** at: United Way of Broward County, 1300 S. Andrews Ave., Ft. Lauderdale, FL 33316.

Lunch will be provided!

6 CEU's through South Florida Wellness Network, an approved Florida Certification Board Provider
