---

## **About Us**

### **Who we are**

The Safe Center is a creation of two former non-profit agencies that separately served the victims of domestic abuse and child abuse. Located in a historic Grumman building in Bethpage, it was created in 2014 through the merger of the Nassau County Coalition against Domestic Violence (CADV) and the Coalition against Child Abuse & Neglect (CCAN). Each had been providing services for victims of abuse for over 30 years.

The merger into one unified non-profit provides a fast and easy path to resources that assist in saving and changing the lives of the victims of domestic or dating abuse, child abuse, and rape and sexual assault.

### **Who we help**

Children, women, men and elderly victims of sexual assault and emotional, psychological and severe physical abuse are those we serve. We make no distinction between race, creed, color, gender, income bracket, sexuality or age.

For other ways you can support The Safe Center please see our website → <http://thesafecenterli.org/>
