

The Junior Upcoming Medical Professionals is a middle school program founded by HOSA. Its purpose is to expose middle school students to the health professions, generate interest, and start them on a health pathway. This year 13 schools formed NEW JUMP clubs! The students ended the year with a JUMP Spring Showdown where over 300 junior high students competed in over 20 medically-related games and competitions. Sponsorship of the event enabled us to provide awards, prizes and a pizza lunch! ▼

"I believe that the JUMP Showdown is an incredible opportunity for those interested in the medical field. You are able to meet many driven and intelligent people, who have the same goals and dreams you do, and you are also able to learn so much information from participating in the events.

—Sanskriti Balaji, JUMP Club member

DID YOU KNOW?

Reach Out /IHPC is the Riverside and San Bernardino Counties

Health Industry Consultant

for Workforce Development Department

IHPC Nexus Groups

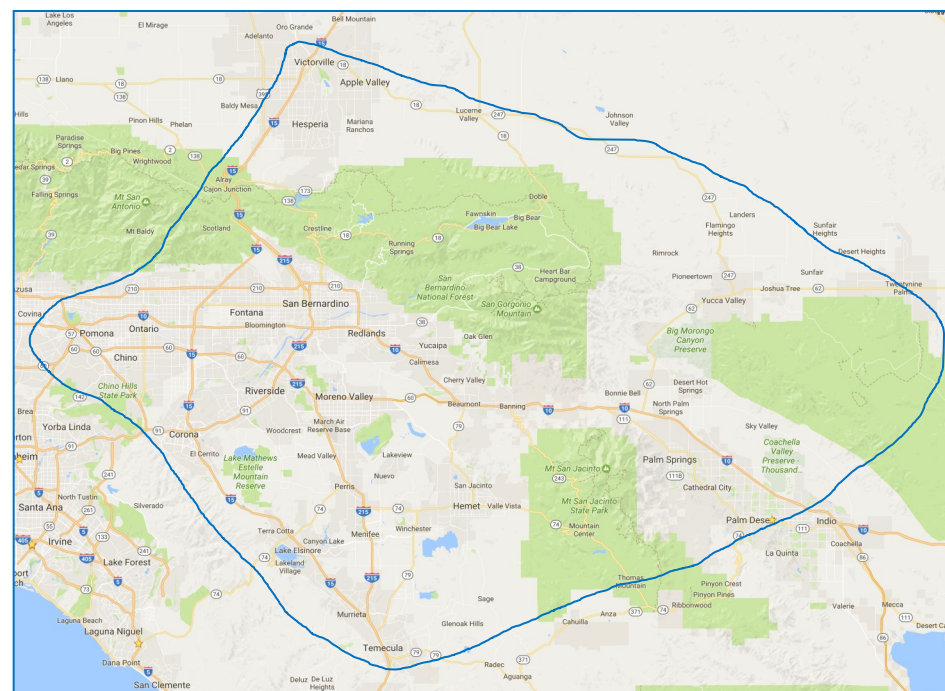

Riverside Regional Nexus
Moreno Valley, Jurupa Valley, Corona, Norco, Perris, and Riverside

Rancho Cucamonga, Ontario, Chino, Chino Hills, Montclair, Upland, Claremont, Pomona, and La Verne

Service area map: IHPC offers support to schools in the San Bernardino and Riverside Counties, and Pomona Valley region.

REACH OUT

Strengthening Communities

WE ARE REACH OUT

Reach Out's mission is to strengthen communities by bringing people together to solve our region's toughest issues: breaking barriers to **educational achievement**, expanding **economic opportunities**, and creating **safe, healthy and innovative communities**.

Since 1969, Reach Out has been dedicated to the Inland Southern California region to achieve vibrant, equitable, and healthy communities. To learn more visit: www.we-reachout.org.

As an initiative of Reach Out, the **Inland Health Professions Coalition (IHPC)** achieves this mission by addressing the need for health professionals in the Inland Empire and developing a health workforce that is diverse and community-responsive. We work collectively to identify and facilitate solutions to the economic, educational, social, and environmental barriers to a seamless health professions pipeline. We support coalition members, students, and teachers through information dissemination, work-based learning, training and technical assistance, research and evaluation, advocacy, and coalition-building. Our mantra: *Plan Now, Live Well, Serve Here*. To learn more visit InlandCoalition.org.

IHPC wishes to thank the following for substantial support: Baldy View ROP, Office of Statewide Health Planning and Development (OSHPD), The California Endowment (TCE), Kaiser Permanente, San Bernardino County and Riverside County Workforce Development Departments, and California Career Partnership Trust (CCPT).

INLAND HEALTH PROFESSIONS COALITION

2016-17 Annual Report

Plan Now. Live Well. Serve Here

REACH OUT
Strengthening Communities

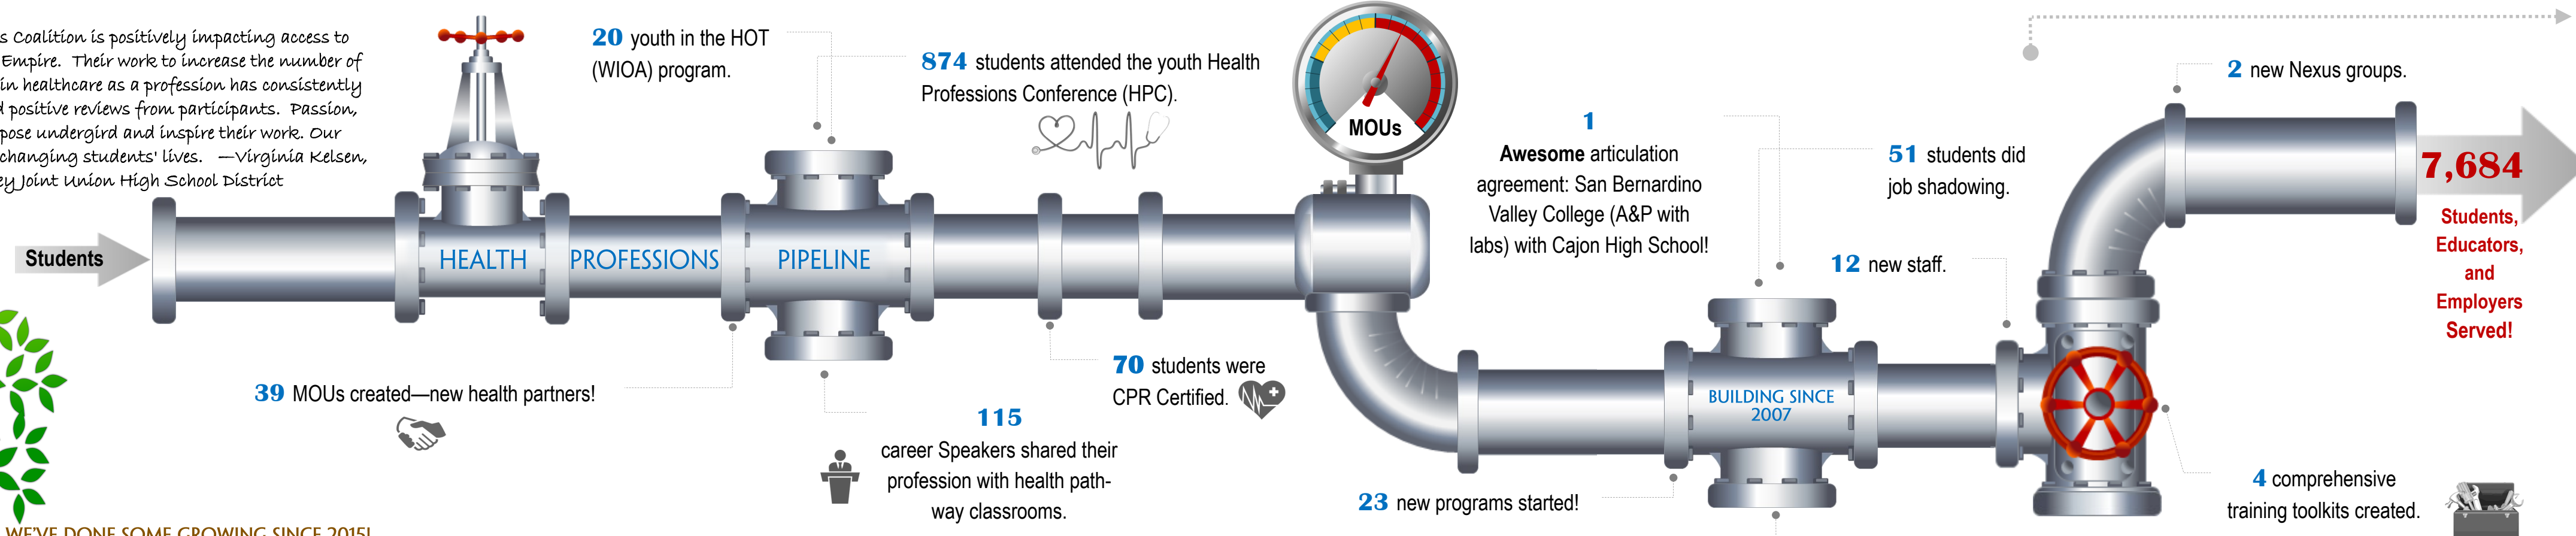

Inland Health Professions Coalition is positively impacting access to health care in the Inland Empire. Their work to increase the number of local students interested in healthcare as a profession has consistently and impressively received positive reviews from participants. Passion, professionalism, and purpose undergird and inspire their work. Our partnership with them is changing students' lives. —Virginia Kelsen, Executive Director, Chaffey Joint Union High School District

WE'VE DONE SOME GROWING SINCE 2015!

- Coalition Members increased 86%
- Health Site Visits increased 333%
- Job Shadows increased 48%
- Mock Interviews increased 26%
- Teacher Externships increased 16%
- Student Internships increased 163%

Students

Introducing LIFE—The student's Learning Inspired Field Experience. Launched in 2016, this structured program is designed to provide selected health pathway students the opportunity to gain valuable on-site job exposure at a health facility or medical center. Qualified students must complete 60-80 hours under the supervision of a dedicated health professional and a teacher or IHPC staff member. This school-year year, **31** students from schools across the Riverside and San Bernardino counties participated in the pilot of the LIFE program. The LIFE toolkit was created to assist facilitators, hosts, and sites in the implementation IHPC's new signature program. ▼

IHPC Events

- Public Health 101 Series
- Medical Boot Camp
- Work-Based Learning Institute
- Physician Assistant Day
- 20/20 Optometry
- Sports Medicine Day
- Discovery Health Camp
- Community Business Mixers
- JUMP Spring Showdown
- HPC 2016 & 2017
- Resource Day 2016
- 1,865 Participants**

"Best opportunity ever! We observed many traumas and learned a lot from the physicians, PAs and nurses." Hanan Ali—Redlands High School

HPC 2017 Stats

- 65%** of students surveyed said they were exposed to a new health career!
- 85%** of students surveyed said they were inspired to pursue a health career!
- 70%** of students surveyed said they would use the resources they received at HPC.

It's all about the white coat! The **White Coat Program**, sponsored by San Bernardino County Medical Society, had a second co-hort of 23 students for Spring Break 2017. Students completed 40 hours of job shadow with health professionals across the Inland Empire and High Desert. They each received a symbolic "white coat" during their internship and a certificate of completion.

New Hire! Samantha Perez, a health pathway student from Ontario High School, participated in the **20/20 Optometry** job shadow program and made such a positive impression, she was offered a part time job at Lifetime Eyecare Optometry with owner and optometrist Dr. Yvonne Weisz. ▼

FUN FACTS

The HOT (WIOA) Program offers a second chance for success to at-risk youth who are no longer in school. There are **20** youth between the ages of 16 to 24 currently enrolled in HOT and we've raised **\$3000** to provide scholarships for these deserving young people!

HOT Health Occupations Training Program
