**Demonstrations:** 1:30 pm – 3:30 pm

**Cost:** HBRA Members \$25

Non Members \$35

**Reserve your space by  
January 12, 2017**

### SEMINAR TOPICS

#### Insulation Options For New and Existing Homes

This interactive seminar is designed to sort through the myriad of insulation choices to match the best insulation system to the type of structure. Steve Easley focuses on the material and performance characteristics of new and existing insulation technologies as well as the importance of air sealing a well-designed air barrier system. This seminar will also explain installation and air barrier requirements by codes to develop appropriate specifications to meet these new codes and create buildings that perform with better real world results.

#### Residential Indoor Air Quality

This seminar provides information about how to design and build homes that are comfortable, energy efficient and safe to live in. Steve Easley utilizes slides to illustrate how the air quality in a home is affected by construction materials, water and moisture problems, furnishings, ventilation, human activities and construction methods. Participants will walk away with an improved understanding of the causes of poor indoor air quality and approaches for building better homes.

COUNCIL™

#### Instructor: Steve Easley

Steve Easley is an internationally recognized construction consultant specializing in solving building science related problems and educating building industry professionals and their trade partners. His work focuses on increasing quality of construction, sustainability, performance, and reducing costly mistakes that lead to construction defects and call backs.

Steve's mission is helping industry professionals build & remodel structures that are durable, energy efficient, healthy and comfortable to live and work in. He has more than 30 years of industry experience, performing thousands of jobsite quality surveys and presenting building science seminars around the world with an annual audience of 8-10,000 industry professionals.
