# Tracy's Tech Tips

FALL for #TECH channels on

A Hash Tag is a word or phrase preceded by a hash or pound sign (#) that is used to identify messages on a specific topic and I think it is THE greatest revolution in Social Media! Just by adding that symbol to a post means that other posts with that word will automatically become a search "filter" or "channel" on the web. What channels are you looking for today? Simply add # to the front of the word (no spaces) and see what treasures you'll find this fall! #Fall, #Tech, #Technology, #Big50, #Gadgets, #PumpkinSpiceAnything, #NFLFootball, #Firepits

#tech

#technology

#autumn

#fall

#fallfoliage

#pumpkinspice

Tracy Carroll, Web Services Specialist, Western Maryland Regional Library. I'm looking forward to celebrating a milestone this year and the most beautiful time of the year, fall! ☺
