**Joint Conference Vision and Development Team Survey**

As the Joint Conference Vision and Development Team, we are exploring the vision and development of a model for a new conference enabling us to follow Jesus Christ and strengthen the Body of Christ. Our purpose is to develop a new understanding of conference ministry, identity, purpose and mission. We continue our conversations and need your assistance. As we gather information for our work, we hope you will complete this survey, even if you have already responded to questions at gatherings or annual meetings. The results will inform our work and insure our progress. Thank you.
