Have a Heart for Mission?

Consider training through the Health Outreach Partnership

The Health Outreach Partnership between Lutherans in Medical Missions and LCMS Mercy Medical Teams makes Community Health Education (CHE) available to all congregations and districts—including yours. Our training provides the tools you need to bring hope and healing in the name of Christ—in your neighborhood and around the globe.

Get Ready: What is Community Health Education (CHE)?

CHE helps communities define needs and address them in a personal way. It's focused on the learner, not the teacher. The purpose is not only to transfer knowledge, but to create solutions owned by the community. CHE ultimately focuses on what is most important—God's word and His great love for us through Jesus. This training is a Trainer of Trainers level one event (TOT 1).

Get Set: How Does CHE Support Mission Work?

LCMS Missionaries work with local partners and ask for CHE to meet the unique needs of the community. After the mission team leaves, the program continues--those who were taught become the teachers.

Go!: CHE in Action

Any topic can be addressed using CHE, including community development, physical health, relationships, and Christian living. Through CHE, communities improve, and God is glorified.
