**FREE** impartial advice and guidance

Anderson Education have been working with local and expat families living in the UAE for the past 15 years. Although there are very good schools in the UAE sometimes a family's circumstances mean that they need to consider the option of a boarding school. It may be to ensure stability of education during frequent moves, support for special educational needs or as a stepping stone to university. Choosing a boarding school is difficult enough when you live in the UK. When you live overseas, it makes selecting and visiting schools a huge task. For those parents with little experience of boarding schools it can be a daunting prospect; most rely on friends and family for help and advice. Each child is different and each school is different. With a little help from the experts you can find that perfect place where your child will blossom and grow to his or her full potential.

The environment of a UK Boarding School is motivating, nurturing, caring and aims to give each child the opportunities to develop their personal talents to the full and achieve their academic potential. The wide range of activities and experiences give boarders the opportunity to develop life skills and interests beyond the academic curriculum.

### Why choose the UK?
