This is how we do it at House of Hoytt

Socializing Your Dog

...refers to providing him with POSITIVE experiences with NEW THINGS. The best way to make sure your dog has great experiences is to include things he loves (like food or toys)

new people

Let your dog approach **at his own pace**, if and when he wants to.

Associate new people with **wonderful things**.

BACON!

Make sure puppies are **gently & positively exposed** to different people.

Visit parking lots and other busy places just to watch the people, animals, vehicles, etc. and feed your dog treats.

other animals

Always check that the other animal is friendly & tolerant of dogs before you let your dog approach.

Teach your dog how to act **politely around other animals** by rewarding him for good behavior. Redirect him if he's pushy or overly excited.

If your adult dog doesn't want to play with unfamiliar dogs, that's okay. Adult people don't want to play with every other person we meet either!

new things & environments

To prevent **noise phobia** (eg, fear of thunder), feed your dog a tiny treat every time the noise happens.

Take rides in a boat, train car, or elevator.

Visit your Neighbors just for treats and petting.

Avoid truly scary situations, such as fireworks.
