**Below is an easy homemade toothpaste with ingredients you probably already have on hand.**

**Never use human toothpaste on your dogs, it contains fluoride which is poisonous for them.**

## **Benefits of Homemade Dog Toothpaste**

**Parsley** - Parsley is known to be an anti-inflammatory and helps with bad breath.

**Turmeric** - Turmeric is a natural way to whiten teeth and prevent plaque build up. It's also antimicrobial and anti-inflammatory.

**Coconut Oil** - Coconut oil is a great healthy fat that also eliminates bad breath. It's antibacterial, anti fungal and antiseptic.

**Salt & Baking Soda** - These are gentle abrasives to help clean the teeth

**Beef Broth** - This is just for flavor. If your dog thinks it smells and tastes good chances are they'll let you brush their teeth!

### **Ingredients:**

1/4 tsp Salt 1/2 tsp. dried Parsley 1/4 tsp. Turmeric 2 Tbl. Baking Soda 1/4 cup unrefined, virgin organic coconut oil 1 Tbl. beef broth

**Just mix all the ingredients together, you may have to let the coconut oil soften a little first.**

**Put into an airtight container and let it set up. You can store it in the refrigerator after using.**

**Gracie is used to getting her pearly whites done and Beau above, learns the routine**

**There are so many variations you can make when it comes to this toothpaste. You can substitute the beef for chicken broth. If your dog isn't a fan of turmeric, try a pinch of cinnamon. ~ Submitted by: Goldie Shaw - LowVisionChef.com B & G Effects Corp. Bristol, IL 60512 Phone 630-553-6921 Fax 630-553-2913**

IT CAME TO ME THAT  
EVERY time I lose a dog  
they take a piece of  
my heart with them and  
EVERY NEW DOG WHO COMES  
into my life gifts me with  
a piece of their heart  
IF I LIVE LONG ENOUGH ALL THE  
components of my heart  
WILL BE DOG AND I WILL  
become as generous &  
loving as they are
