7/12 Understanding Childrens' Behavior: The Circle of Security™ Approach

Presenter: *Susan Mrazek, Early Childhood Mental Health Consultant*

6:30pm—8:30pm

Registration Fee: \$25

Many children struggle with disrupted early relationships and challenges. These experiences have negative effects on a child's physiology, emotions, impulse control, self-image, ability to think, learn and concentrate. Children with these histories often have behavior issues, trouble using their caregivers for help, difficulty learning from mistakes, and problems in regulating their own emotions and behavior. The Circle of Security™ intervention is designed to offer caregivers direction and clarity in understanding trauma and relationship repair. With this understanding, caregivers can better interpret children's needs and provide a supportive base for children to feel safe to explore and learn.
