

General Guidelines

- Please review the two petitions:
 - Here is a link to the CTIA Petition: <https://ecfsapi.fcc.gov/file/10616144416997/170616%20-%20FILED%20CTIA%203.5%20GHz%20Petition%20for%20Rulemaking.pdf>.
 - Here is a link to the T-Mobile Petition: <https://ecfsapi.fcc.gov/file/106191696422731/T-Mobile%203.5%20GHz%20Petition%20for%20Rulemaking%20--%2012-354%20--%206.17.2017.pdf>.
- File comments unique to your company, not “cookie-cutter” comments
 - Explain what your company does
 - How many customers do you have?
 - What part(s) of the country do you serve? How rural is the area you serve?
 - What service do you currently offer (e.g., speed)?
 - As appropriate, emphasize:
 - Your company’s investments in 3650-3700 MHz
 - Plans for gaining access to the CBRS band
 - Benefits of having the ability to get access to 100 megahertz of mid-band spectrum
 - Note that you have an experimental license (if you do) and what the purpose of the trial is
 - Problems that additional spectrum will solve (e.g., investment, congestion, throughput, QoS, interference, etc.
 - Focus on consumers
 - For rural providers: focus on extending fixed broadband service to rural Americans that lack broadband or choice
 - Be clear that you **oppose** the CTIA and T-Mobile petitions
- We are happy to answer questions, provide suggestions and assist in filing your comments.
